

# Tuolumne County Business Council

## What is the TC Business Council?

Formed in mid-2008, we are a diverse group of business leaders committed to taking an active role in identifying key issues and facilitating positive change that effects economic prosperity in Tuolumne County. The TCBC works to recommend and support responsible policy and programs at the City, County and State level. The Council also works to modify and eliminate existing and proposed programs that adversely impact our rural area.

## Our membership

Our diverse businesses are concerned about our county economy and quality of life. Our membership is represented by health care, recreation and tourism, natural resources, technology sector, banking and title work, planning and economic development (Board of Realtors, developers, propane suppliers), and communications (radio and print media), gaming, lodging, insurance, accounting, utilities, property management and others.

We support the Economic Development Authority (TCEDA) as well as local Chambers and feel they are important to our community. The TCEDA is focused on attracting new business and industry as well as helping existing businesses expand and upgrade. A large part of our focus is working to balance, streamline and simplify the very cumbersome levels of government regulation that stifle positive economic operations and development while preserving and enhancing the quality of life we all desire in the Sierra Foothills.

**Tuolumne County**  
Business Council

## Mission

- Expand and enhance community job base
- Support intergovernmental cooperation
- Encourage private / public partnerships
- Promote community wellness
